Subject: Red Emerald Mine - M/001/058 - Notice of Intention

Hi Dick:

We received your Notice of Intention to Conduct Large Mining Operations for the Red Emerald Mine. However, in glancing over the application, we find that:

- 1) the application has not been signed (page 15),
- 2) the \$500.00 permit fee was not included (page 15), and
- 3) the adjacent land owner section was left blank.

I will fax these two pages to you to complete and then you can mail the original pages back to us.

The Division is unable to start the review of the application until the fee and signature is received.

Thank you for your help.
